

WHAT'S NEW IN THIS VASL VERSION – VASL6.7.2-beta2

Bug Fixes

- Fix 1: Slaughter at Ponyri Sapper Squads/Halfsquads broken sides.
- Fix 2: Japanese 9-0 leader fixed.
- Fix 3: Fixed several Null bugs causing VASL to crash.
- Fix 4: Fixed bugs when adding overlays via boardpicker.
- Fix 5: Fixed Board data bug causing VASL to crash.
- Fix 6: Fixed OBA Window bug causing VASL to crash.
- Fix 7: Fixed ROF Die bugs causing crash.

Improvements

- Improvement 1: Selecting Preserve Board Elevation when adding Overlays in Boardpicker now works better with LOS and changes are stored in the .vsav file and will persist across sessions.
- Improvement 2: Draggable Overlays (under the Orchard Button on the Toolbar) now work with LOS (EXC: Deluxe Draggable Overlays).

Features

- Feature 1: SASL support for Finnish and Forgotten War nationalities (BCFK, CPVA, KPA, OUNC, SK). Use the existing U.S. Army S? for Korea.
