- Fix 32: Counter errors for Russian radio and Chinese MMG fixed.
- Fix 33: LOS Bugs with missing Bridge and Gully/Stream locations fixed.

Improvements

Improvement 1: Added LOS Checking to HASL bdDaE.

Improvement 2: Changes to autosave feature so that users can select what directory files will be save to. Also changed how games are saved so that they do not get added to the recent games tab.

Improvement 3: Adjusted shade of red used in vehicle and gun counter notation to improve visibility.

Improvement 4: Adjusted position of vehicle movement point values for improved readability.

Improvement 5: Matched broken side "Class IDs" to the new good order side versions.

Improvement 6: Removed thin black stroke on "white" text OBA counter variants to improve readability.

Improvement 7: More closely matched BMG & RMG malfunction counters/Multi-fire counters/"Bad Things" flags to the physical game components.

Improvement 6: Added "Orchards to Olive Groves" transformation.

Improvement 9: Added "Airborne" text to British Airborne SW mortar.

Improvement 10: Adjusted position of PP text on several British SW counters to improve readability.

Improvement 11: Converted miscellaneous gun and vehicle counters to SVG.

Improvement 12: Adjusted 5/8" Smoke & WP text to interoperate with updated Nationality Smoke extension.

Improvement 13: Phase wheel converted to SVG.

Improvement 14: Drawing LOS now does not hide all the units, they are visible with reduced opacity.

Improvement 15: Make RST square on vehicles more pronounced.

Improvement 16: Debris Overlay added to Draggable Overlays; has changeable level background and works with LOS.

Improvement 17: Sangar counter now has winter color.

Improvement 18: Added "Out of Gas" and "Out of Gas Abandoned" counters.

Improvement 19: Added SVG Barrage counters.

Improvement 20: Panzer Lehr symbol updated.

Improvement 21: Update American counters' label background color to match the new American counters' base background color.

Improvement 22: LOS Code should work in all crop / flip configurations (for LOS enabled boards).

Features

Feature 1: Font required for updated (SVG) counter graphics is now included in the VASL VMOD, no need to separately download and install the font.

Feature 2: Counters for Slaughter at Ponyri added to the HASL and CGs section.

Feature 3: Counters for Twilight of the Reich added to the German and Axis Minors counter palettes.

Feature 4: Polish Eagles counters from Doomed Battalions Fourth Edition added to the Allied Minors counter palette section.

Feature 5: Added WW-I Russian armored trucks from "Special Operations" magazine ASL Scenario O5.

Feature 6: Adding full set of SASL dr/DR buttons (enabled via preference in VASL tab). Remove SASLDice extension as it is no longer needed.

Feature 7: Adding SASL suspect counter activation flags in conjunction with the SASL Campaign Game Roster version 4.0 (see the SASL CGR help for more details).

Compatibility Notes

Minimum Version Required: Built with VASSAL 3.7.18.
