

WHAT'S NEW IN THIS VASL VERSION – VASL6.7.2

Bug Fixes

- Fix 1: British Sherman IIA(a) missing front inferior turret armor symbol.
- Fix 2: Japanese 9-0 leader fixed.
- Fix 3: Fixed several Null bugs causing VASL to crash.
- Fix 4: Fixed bugs when adding overlays via boardpicker.
- Fix 5: Fixed Board data bug causing VASL to crash.
- Fix 6: Fixed OBA Window bug causing VASL to crash.
- Fix 7: Fixed ROF Die bugs causing crash.
- Fix 8: Removed assault fire underscore from British AE and E half squads.
- Fix 9: Display Bulgarian 70* INF Gun in Counter Palette properly.
- Fix 10: Added missing Italian dice image.
- Fix 11: Added missing Finnish S? counter.
- Fix 12: LOS bugs for Hillocks and Marsh to Swamp transform fixed.
- Fix 13: Range display for linked (CTRL-ALT-L) counters fixed.
- Fix 14: Base CVP value for Italian squads and all HS set correctly.
- Fix 15: Slaughter at Ponyri Sapper Squads/Halfsquads broken sides.
- Fix 16: Game Updater functionality restored.
- Fix 17: Ammo Depletion indicator bug fixed.
- Fix 18: LOS bugs with Bocage and Cliffs fixed.
- Fix 19: Remove "(f)" notation from Axis Minor SW mortars not present on physical counters.

Improvements

- Improvement 1: Created "Gutted Building Wall" terrain types to support VotG LOS.
- Improvement 2: Added missing Axis Minor "German" MMG, HMG and PSK counters.
- Improvement 3: Selecting Preserve Board Elevation when adding Overlays in Boardpicker now works better with LOS and changes are stored in the .vsav file and will persist across sessions.
- Improvement 4: Draggable Overlays (under the Orchard Button on the Toolbar) now work with LOS (EXC: Deluxe Draggable Overlays).
- Improvement 5: LOS support for bdHT (Hatten In Flames) and bdVotG (Valor of the Guards) added.
- Improvement 6: Minor graphical changes to the Japanese HMG/.50 cal HMG counters.
- Improvement 7: HIP Fortification now displays bd and location info for Fortification and Unit when asking to reveal.

Features

- Feature 1: SASL support for Finnish and Forgotten War nationalities (BCFK, CPVA, KPA, OUNC, SK). Use the existing U.S. Army S? for Korea.

Compatibility Notes

Minimum Version Required: Built with VASSAL 3.7.20.
